Subject: West Lake Landfill: draft approval letter for the revised IB preconstruction work plan

Cecilia, Jeff, David,

I have finished my review of the IB preconstruction work plan and prepared a draft approval letter that I placed on H:, West Lake Schedule Tracker, Subsurface Oxidation Event, Subsurface Barrier design documents, filename "EPA comments on Final IB workplan.docx". This will need to be updated to reflect any feedback from USACE (who is reviewing the document for compliance with its comments and should have its opinion to us by this Friday, June 27). In addition to approving the workplan, I've added a request to resubmit the Order-required deliverable Plans separately for individual approval, and guidance to the Respondents on how to deal with MDNR's comment letter (per direction on that topic from Cecilia).

Please review and edit as appropriate.

Sincerely,
Daniel R. Gravatt, PG
